doc format; e-book (Kindle and PDF); and e-pub (Kindle). "It is the first time that a work of this kind has been published in an essential language for all young people, not only in English speaking countries but also in the Spanish-speaking world, and will continue to be a reference, both for students and teachers, with a lasting place in the history of the OALD, the OFL and the SLAC." Language learning OALD is an extremely important resource for language learning. It is "not only the most popular book for beginning, intermediate and advanced learners of Spanish in the UK, but is also used in classes to teach the language. The teacher's book has been praised for its level of detail, and the idea of assessing students on the accuracy of quotations and the use of colloquial language has been introduced in many schools." The book offers a stimulating, easy-to-follow, conversational style of writing, and has been praised as "the most successful attempt yet at producing a contemporary native-sounding Spanish for learners". It includes a number of sample texts from real-life situations, which make it an excellent resource for using in language classes. Adaptations There are several versions of OALD available for different types of learner, including:

- The OALD Junior, which was initially created for young learners, is written in a lively and fun style to support teachers and parents with their work.
- The OALD Teacher's Book and OALD Teacher's Guide for A-Level and Master's students are written in the "formal" style used in university classrooms.
- The OALD Student's Book is written in a conversational style, which is "suitable for a wide range of learners including those with an initial language deficit and those with little or no knowledge of Spanish".

Awards and recognition OALD won the Queen's Award for Enterprise in 2007 and the 2008 Language Learning Association's RISA Award for the best publication about language learning, the 2008 British Council Award for Teaching and Learning, and the 2009 British Council Award for Teaching and Learning.
